

Network / Server Security Cabinet Units

19" NETWORK SECURITY CABINET UNIT Item Code: OZD-XIN-NC100208 Series

The OZD-XIN-NC1002008 Series Network / Server Security Cabinet Units are light-weight, industrial strength, Professional Network Security Cabinets. These Units are suitable for use in Small to Large Offices, Network Rooms, Database Warehouse Centres, Server Farms, Co-located Server Buildings, Telecommunication Centres and more.

The OZD-XIN-NC1002008 Series Network / Server Security Cabinet Units offer Light Alloy Full Frame Structures with Top and Bottom Precision Die-cast Moulded Plinths, Light Alloy Extruded Columns, Vented Top and Bottom Panels and different combinations of Vented, Glass or Solid Panel Front and Back Doors. They are available in 600, 800, 1,000 and 1,100 mm Deep Sizes with 15, 19, 24, 28, 33, 37, 42 and 46U Rack Storage Spaces. They come with Castor Wheels for easy manoeuvrability and Levelling Feet to ensure the stability of the Cabinets when they are fixed in location.

The OZD-XIN-NC1002008 Series Network / Server Security Cabinet Units are very simple to assemble and can be shipped either fully assembled or in knock-down flat packages, thus reducing their overall shipping volumes by 60% and greatly reducing shipping costs. A large range of accessories is also available including 2, 4 or 6 Fan Units, Sliding Shelves, Sliding Rails, Sliding Keyboard Shelves, Vertical Power Point Columns, Castor Wheels, Levelling Feet, etc.
